Education

Degree	Institute	Year	CGPA/%
B.Tech CSE	Amity University Jharkhand	2023–2027	7.72
ISC	St. Xavier's School Ranchi	2021	80%
ICSE	St. Xavier's School Ranchi	2019	91.6%

Technical Skills

Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Languages: Python, Java, C/C++
Libraries: TensorFlow, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
Tools: Git, GitHub, HuggingFace, VS Code, PyCharm, Colab, Anaconda

Projects

Diabetes Risk Prediction System GitHub
Python · Scikit-learn · XGBoost · Streamlit

- Built end-to-end ML pipeline, trained four models (LR, SVM, RF, XGBoost)
- RF Achieved 77% accuracy and 0.83 ROC-AUC
- Deployed Streamlit app with SHAP explainability

Sentiment Analysis Web App GitHub
Transformers · HuggingFace · DistilBERT · Python · PyTorch · Streamlit

- Fine-tuned DistilBERT transformer model on 67,000+ sentences from Stanford SST-2 dataset using HuggingFace Transformers and PyTorch
- Achieved 91%+ validation accuracy with GPU-accelerated training using mixed precision and early stopping
- Built and deployed an interactive Streamlit web app with real-time predictions, confidence scores, and analysis history
- Hosted trained model on HuggingFace Hub and deployed live app on Streamlit Cloud with public URL

Internships

- **Design and Development of an IoT and AI-Driven Soil Monitoring Smart Irrigation System**
  - Developed the Machine Learning model for the Smart Irrigation System
  - JCSTI-funded Project
  - Under the guidance of Dr. Mohit Kumar (PI) and Dr. Purushottam Singh (Co-PI). *May-June 2026*

Certifications

- **ATF 2025: Stage 2 Candidate** — Stage 1 Cleared

Positions of Responsibility

Placement Co-ordinator *2025–26*

Other Experience

- **Jharkhand Grassroots Innovation Intern (Govt. of Jharkhand)**
  Documented traditional practices and grassroots innovations in Lalgutua Panchayat, Ranchi, as part of a state-run innovation scouting initiative. *June-July 2026*
